DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1-7, 12, 13, 17-20, 25, 26, and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Armstrong (US 4,893,751 A).

Armstrong discloses a striper cart comprising a J-shaped frame 13, 15, 23, 31, 83 with longitudinal section 15, 31 and transverse sections 13, 83 at each end, a plurality of wheels 21, 29, means for moving (or handle) 45, means for supplying paint 59 with flexible hose 69, and means for attaching a spray gun or support post 81, 93, 95 with elongate slot and gun holders 79, as shown in figures 1-9.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 14-16 and 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Armstrong, as applied to claims 1 and 17 above, and further in view of Smrt (US 4,262,821 A).

Armstrong does disclose a control means or control lever 47 on the handle for controlling paint spray. Armstrong does not disclose the handle as being a length adjustable pole. Smrt does disclose a striping cart with length adjustable pole handle 34,35, as shown in figures 3-5. It would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the cart of Armstrong with the length adjustable handle of Smrt in order to adjust the handle length for different heights of a user.

Allowable Subject Matter

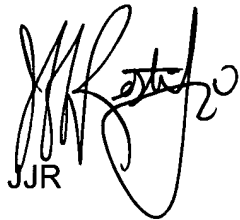

5. Claims 8-11 and 21-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
